I am a dynamic professional with a diverse background in data analytics and project management. Passionate about technology and driven by a desire to make a positive impact, I am constantly seeking new challenges and opportunities for growth

WORK EXPERIENCE

Indian Institute of Technology, Kanpur

Summer Intern

(July 01, 2021 - August 31, 2021)

Utilized Python's matplotlib and pandas libraries to convert CSV data into visually compelling insights, effectively conveying complex patterns and facilitating data-driven decision-making for an engineering problem.

AIT Entrepreneurship Centre, Bangkok

Research Assistant

(May 01, 2023 - July 31, 2023)

As a Research Assistant in AIT Entrepreneurship centre, I worked to conduct experiments, prepare reports and presentations to support the centre's programs and initiatives

EDUCATION

Jalpaiguri Government Engineering College, Jalpaiguri, West Bengal, India

B.tech, Mechanical Engineering

(August 06, 2018 - July 28, 2022)

8.24 CGPA

Learnt about core Mechanical Engineering concepts, C++, and Excel

Asian Institute of technology, Bangkok, Thailand

M.Engg, Industrial and Manufacturing Engineering

(August 05, 2022 - Present)

3.69 GPA Ongoing

Currently pursuing this degree where I am learning primarily about Supply Chain Management, Statistical Analysis, Product Design and Data Analytics

PROJECTS AND CERTIFICATIONS

Ecommerce Sales Dashboard Project

Here, I created a dashboard reflecting all the KPIs and metrics like profit, revenue and sales demographics of an e commerce store.

Data Visualisation: Empowering Businesses with Effective Insights Certification

A practical hands-on training offered by Forage in association with TATA. Through this training, I gained some hands on practical experience on how to understand business requirements, present those requirements through a Power BI dashboard, and communicate those insights effectively.
